

RUBEN VERHELST

TECHNICAL 3D ARTIST

Technical 3D Artist with 7+ years of experience specialising in procedural workflows, pipeline automation, and asset optimisation. I bridge the gap between art and technology, building tools and systems that make production faster and smarter.

SKILLS

- 3D Modelling using Blender and Maya
- 3D Texturing in Substance Painter
- Graphic design in Photoshop
- Procedural 3D Generation using Houdini and Unreal Engine
- Scripting (Unity, Blender, Maya, Houdini, Python, C#)

HISTORY

BACHELOR GAME GRAPHICS

Howest - Digital Arts & Entertainment
2021-2024

GRAPHIC DESIGNER

Praesidium Centaura & SK Kortrijk
2023-2025

TECH ARTIST

PLAY-IT (internship + 4 months)
2024-2025

GAME ARTIST (ART, AUTOMATION)

Freelance - under NDA
2025-2026

MASTER GAME TECHNOLOGIES

Breda University of Applied Sciences
2025-2026

LANGUAGES

Dutch - Native
English - Fluent
French - Conversational

MY PROFILE

3D ASSET CREATION 6 years

Software used: Blender, Maya, Photoshop, Substance Package

- Built a batch-remeshing pipeline at Play-IT to optimise an entire library of clothing assets for VR, dramatically reducing polycount while preserving visual fidelity
- Combine scripting and procedural tools to automate repetitive tasks and accelerate production workflows
- Freelance 3D work across modelling and texturing for multiple clients

PROCEDURAL ARTIST 5 years

Houdini, Unreal engine, Custom Scripts, Hammer Engine

- Researched and developed LLM-driven procedural pipelines for FPS level generation as part of my graduation thesis
- Deep expertise in Houdini pipeline construction and VEX for scalable, non-destructive workflows

MY OTHER SKILLS

- Extensive knowledge of Photoshop
- Video editing using Da Vinci Resolve
- Rigging and animation fundamentals in Blender
- Scripting plugins for Maya & Blender

Soft skills

- Can work independently
- Can work under pressure
- Outgoing
- **Always eager to learn**
